Tools and Tips to Find the Right College Golf Program

Choosing a college golf program is an intimidating decision. Our two-week program enhances talented junior golfers in their development as student athletes. That's why the Pre-College Golf Experience is designed to equip you with resourceful tools and tips to help match you athletically and academically to a college or university. We'll start by creating a plan of attack to strengthen your college test-taking skills. Then, we'll give you expert advice on resume building, what tournaments you should be playing and what you can do now to get into the right college. In addition, mock interviews will show you how to make your talents and experiences shine during face-to-face interactions with coaches and scouts.

World-Class Instruction to Compete and Win

The Pre-College Golf Experience offers world-class professional golf instruction and coaching. Directed by Master Teaching Professional Grant Griffiths, the program features a staff of U.S. and International PGA and EGTF certified teaching professionals. Our low student-to-instructor ratio guarantees that every student receives personal attention. While playing a different course each day, you'll receive personalized instruction, intensive training, and real on-course competition. At the end of the session, you'll receive a professional online and DVD copy of your advanced video swing analysis that can be sent to coaches.
